

Instruction Card

Instruction manual for Ice Blanket :

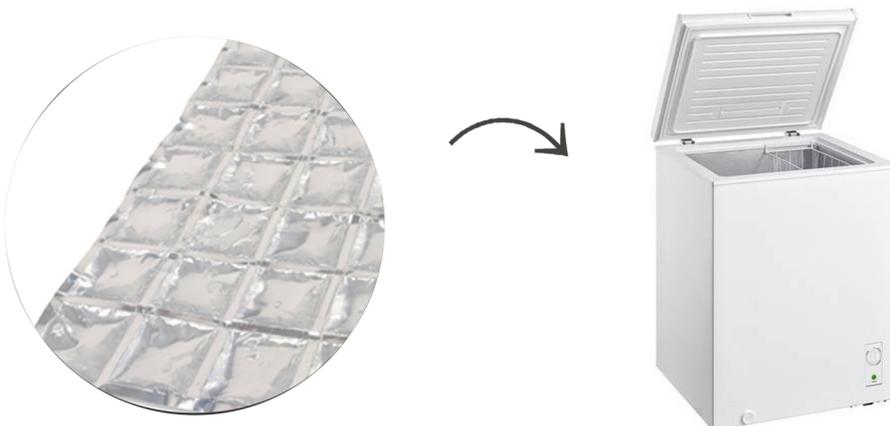

1. The size of the blanket is chosen as per the keg size

2. Then the ice blanket is immersed into room temperature water for 10-15 minutes

3. Put the blanket into the freezer for atleast 10-12 hours before usage

4. The blanket once chilled can be used to cover the keg , and then the keg is closed from top with the help of a Hook and Loop

5. Now you can keep your beer chilled in the keg for 24 hrs. This ice blanket can be used repeatedly 20-25 times.
